FY 14/15	42	43	51	43									179

Figure 5: 30-Days Readmission Rate

	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun
FY 12/13	30.7%	29.3%	23.7%	28.3%	30.0%	26.2%	31.0%	26.8%	24.6%	30.7%	30.8%	27.3%
FY 13/14	25.3%	26.7%	26.9%	23.7%	24.0%	25.5%	25.0%	22.6%	23.9%	23.0%	27.9%	27.5%
FY 14/15	20.2%	23.1%	25.0%	21.5%								

METHODOLOGY: The 30 day readmission rate for START Programs is calculated by dividing the number of 30 day readmissions by the corresponding number of discharges in the month specified. A readmission is defined as a client who was discharged from any of the six START Programs within a specified month and then subsequently admitted to SDCPH, any FFS Hospital, or any START Program within 30 days of that START discharge. For example, if a client was discharged from any START Program on November 15th, it is considered a readmission for November if the client was admitted anytime between November 16th and December 15th to SDCPH, any FFS Hospital, or any START Program. If a client has multiple discharges and readmissions within the month specified, each is calculated individually. If a client is transferred from one START facility to another these admissions would not be considered readmissions. Data in each successive report may change due to Anasazi software promotions/fixes, or updates to data extraction methods.
